Promoting an Entrepreneurial Spirit

ESCP places an increasing value on capturing and nurturing an entrepreneurial spirit: as true for established businesses as for start-ups.

Our Chair for Entrepreneurship, created in 2007, was a token of our strong belief that cultivating entrepreneurial spirit is important for all students in all disciplines.

In 2018 the JEAN-BAPTISTE SAY INSTITUTE was launched to offer a European academic reference dedicated to entrepreneurial leadership and innovation.

Entrepreneurship courses

are included in the MBA as a core course and as a Specialisation (optional).

Incubators and accelerators:

The School has three 'Blue Factory' incubators in Berlin, London, Madrid, Paris and Turin, as well as an accelerator in Paris. Overall the creation of more than 600 companies was supported since 2007.

Events include real and simulated opportunities for students to pitch their business ideas to panels of investors and experienced entrepreneurs.

Highlights are the annual 'Innovation & Entrepreneurship Award' and the 'Made in ESCP' pitching event in Paris. In addition, during the annual Global Entrepreneurs Week, Entrepreneurship Festivals are organised at each of our campuses.

Alumni Testimonials

Cynthia Nahas
Class of 2019, Lebanon
Customer Success Account
Manager at Microsoft (France)

"After three years of experience in a FinTech company as a functional consultant, I decided to start a new adventure and challenge myself on different levels: personal and professional. I chose to pursue an MBA degree at ESCP Business School to develop my knowledge in International Business and embark on an international career path, but not only. This experience allowed me to get out of my comfort zone, live in two different countries and meet people from different cultures and backgrounds which enriched this experience and made it one of a kind."

Valentina Ullrich
Class of 2020, Germany
CEO & Founder of Frieda Health
(Germany)

"The MBA programme at ESCP is the perfect mixture between practical (consultancy) experience and transfer of knowledge and personal development through 1-on-1 coaching. Furthermore, it provides an incredible network of talented people from all over the world and the opportunity to study in more than 2 capital cities in Europe."

Cecelia Zhu
Class of 2022, China
Senior Programme Manager at
Amazon (Berlin)

"My experience at ESCP was genuinely transformative. The programme afforded me the opportunity to delve into subjects that bolstered my business acumen in the international market. I particularly valued the programme's duration, diverse multi-campus experiences, and the meaningful connections forged with fellow cohort colleagues. Notably, the commendable ESCP alumni network deserves special mention. Every individual I approached before and during the MBA demonstrated kindness and support. Reflecting on my journey, I can confidently affirm that the return on investment from studying at ESCP was not only satisfying but also instrumental in propelling me to the career and life milestones I aspired to reach."

Gaurav Purohit
Class of 2020, India
Global SDR Manager at Crownpeak
(Luxembourg)

"The programme has been helpful in several ways. To begin with as ESCP is a powerful name across Europe, it made my job search & networking efforts better. People valued me even more after they realised I received my degree from such a reputed school. Furthermore, my experience in collaborating with different nationalities is helping me a lot in my current work environment. Last but not least, my personal dream of working in Europe was made to come true after joining such a prestigious school."

Ludovic Bamou Nyamsi
Class of 2022, Cameroon
Senior Account Manager at
Google (Ireland)

"When it came to choosing a school for my MBA: beyond reputation, the access to a multi-country experience immersed in a highly culturally diverse study environment was a must-have. ESCP perfectly matched these criteria. I had a very enriching experience on the Paris, Berlin and Madrid campuses. I was particularly impressed by the quality of the alumni network and the career services, through extensive coaching sessions, interview preparations workshops, experience sharing meetings with senior professionals from various industries and career weeks."

Rene Carrillo Turcios
Class of 2023, El Salvador
Western Europe Logistics Services
and Project Manager
Hilti Group (Paris)

"When choosing an MBA programme, I believe there are many factors to consider. For me, the ESCP MBA stood out for its truly international nature, featuring international professors, a diverse cohort, and multiple campuses in different cities, allowing you to choose and experience different cultures during the same journey. Additionally, the sense of community is a significant factor. The friendships formed during the MBA are crucial for success throughout the programme. Although it is difficult to predict what comes next in personal and professional life, the diverse perspectives from my colleagues have been invaluable in helping many of us succeed after completing the MBA."

The opportunity to be a part of the MBA cohort 2023 was a groundbreaking experience for me. From meeting people from 27+ nationalities, to learning about the various business aspects, this year has been a great source of growth and transformation.

The MBA is a full blend of learning, leadership and experience and development. The multi-campus experience that ESCP offers is another value added to the MBA that teaches us to navigate through the professional and personal aspects in addition to time management, logistics and stakeholder management.

The course work is really extensive with deep learning through practical work and case studies that gives a holistic idea of the subjects. Various exercises such as the Business Simulation, Supply Chain Game as well as the company strategy simulation gives a real-time experience of the subjects and teaches how to implement proposed strategies in the actual business scenarios. The hands-on project work, combined with specialised training, has equipped me with the skills needed to analyse complex business problems, develop actionable solutions, and effectively communicate recommendations to clients.

As an addition to the MBA experience, being assigned the president of the Women in Leadership society has been a very inspiring journey for me. The values and the mission that the society stands for to create an environment of gender inclusivity and equality is something that I stand for as well and has helped shape and form a sense of growth in all the members. I would really encourage the incoming MBA students to participate in the societies and initiatives as much as they can as it is an additional source of learning alongside the ESCP MBA experience.

Aishwarya Kaushik,
Class of 2024, India
President of the ESCP Women in Leadership Society
