

***Learning communities, peer-to-peer
training, distance learning***

How will these new learning techniques be shaping the future of Learning?

DEATH NOTICE
of an individual, linear, static
and boring education

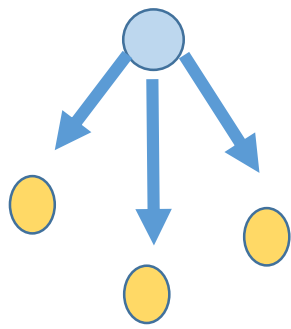

Teaching is not learning !!!!!

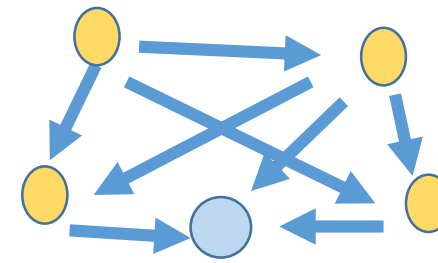

Teach
Learn

From teaching
« one to many »

To learning
« many to many »

Episodic and sequential learning

Learn from a knower

Individual Grades & Degrees

Knowledge-based Hard skills

Fixed Classrooms/timestables

School/Amphitheatres/Classrooms

Educational silos

Shut up and listen !

Work Hard even if it's boring

Integrated and Life-long learning

Learn from/with/through others

Collective Feed-back and social reputation

Relation-based Soft skills

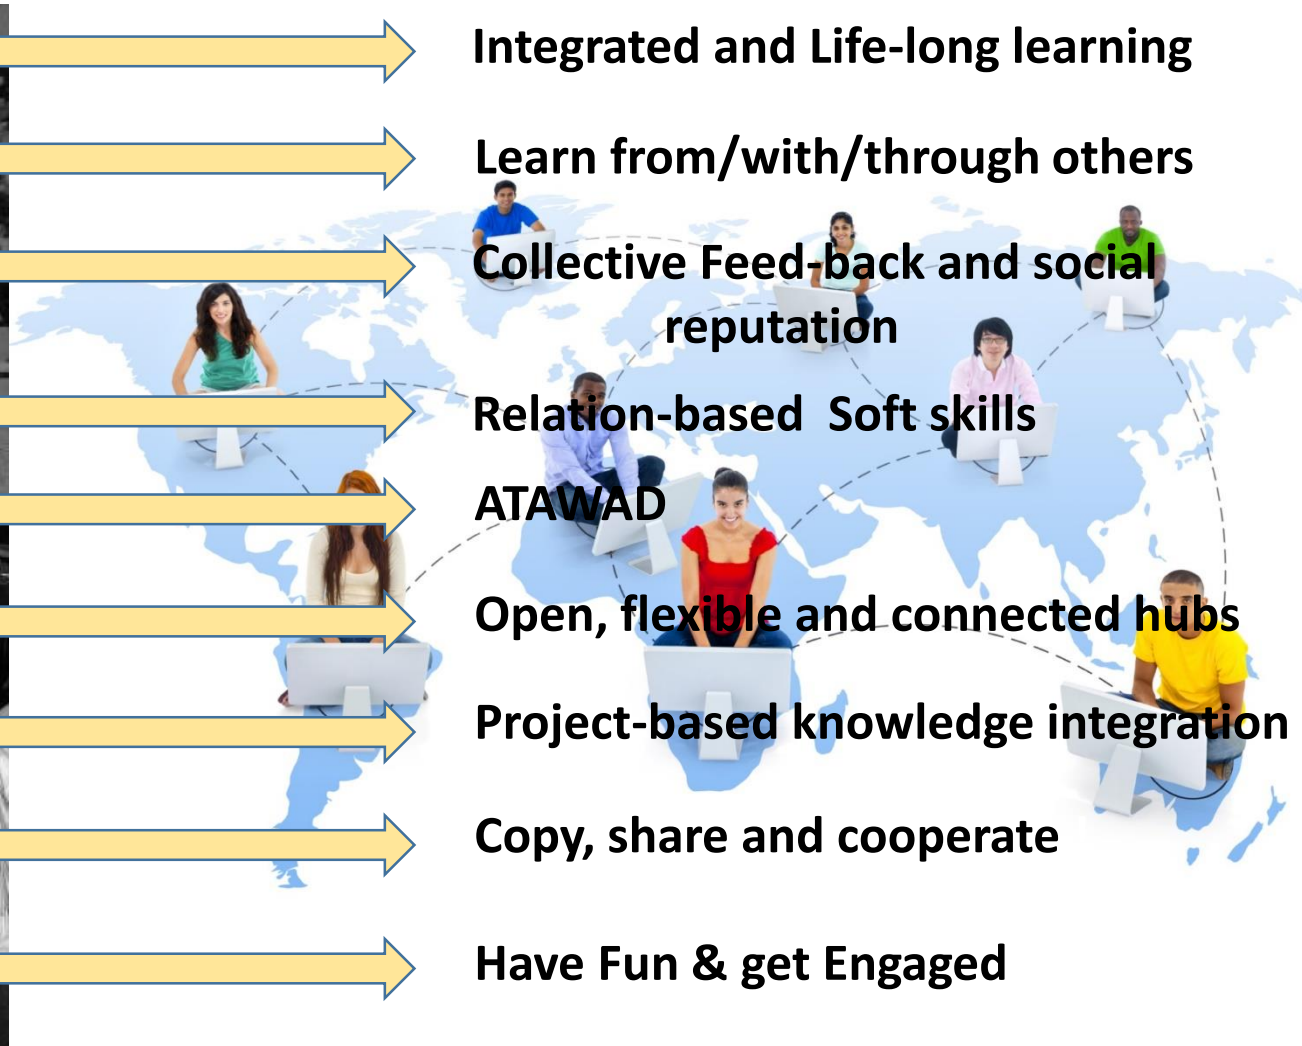

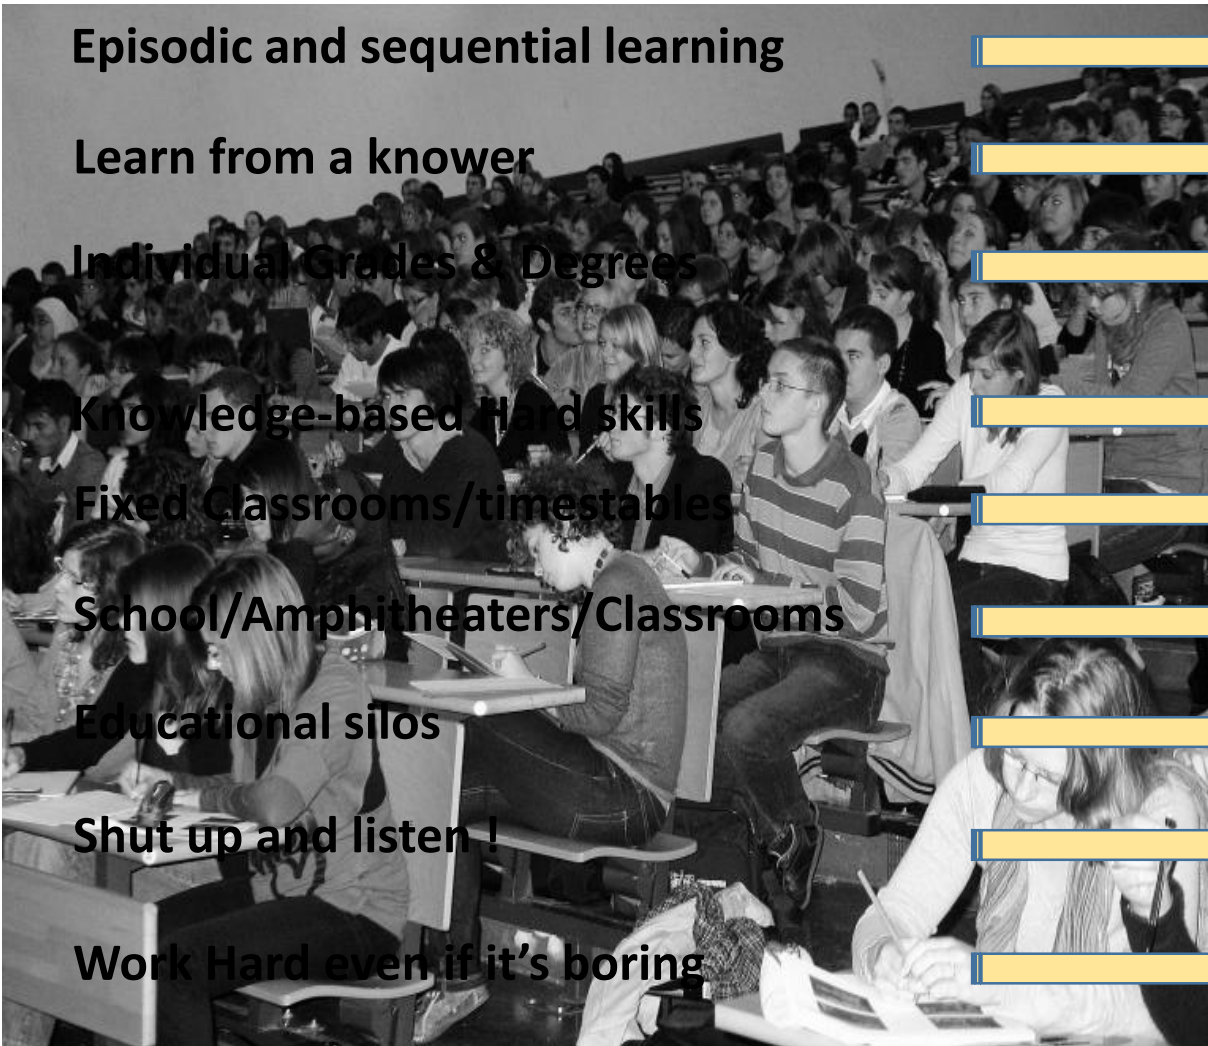

ATAWAD

Open, flexible and connected hubs

Project-based knowledge integration

Copy, share and cooperate

Have Fun & get Engaged

What kind of the practices you have designed to develop collective learning ?

Learning communities

Social learning

Forums

Peer to peer learning

Action learning

<https://app.wooclap.com/events/BFKPGL>

Mentoring

Experiential learning

Co-Development

Problem-based pedagogy

Flipped classroom

Project-based pedagogy

Collective intelligence pedagogy
